

Charges Congress Delay

Truman Says Progress Slow Along Road to Post War Goal

WASHINGTON, Jan. 4.—(AP)—President Truman declared last night that progress had been "distressingly slow" on his legislative program and that "1946 is our year of decision."

Political Purge May See Doom Of Nippon Govt.

By RALPH TEATSORT
Executive to the Edmonton Bulletin
TOKYO, Jan. 4.—(BUP)—Baron Kijuro Shidehara's government may be driven from office by two directives of Gen. Douglas MacArthur ordering a political purge of all men and organizations guilty of promoting Japanese aggression, informed Japanese sources said today.

AT LEAST THREE MEMBERS of the Shidehara cabinet were members of political organizations abolished by the broadly worded MacArthur decrees. They were expected to quit the cabinet, forcing a major reorganization.

MacArthur struck deep into the roots of Japanese aggression with his two decrees, which will bar the militaristic factions from holding office in the coming elections for the Diet.

AUTHORITATIVE sources estimated the number of officials affected by the directives would "run into the hundreds." It was believed the general elections scheduled for January would see the implementation of the directives rule out many candidates.

The first decree abolished at least 27 political, ultra-nationalist, militarist and secret organizations. The second ordered the Japanese government to purge public officials and the government service of men who have been active exponents of militarism and aggression.

Officials listed for removal from office include high military personnel, influential members of the Black Dragon Society and other terrorist organizations, and influential members of the wartime totalitarian organizations known as the Imperial Rule Assistance Association, the Imperial Rule Association, the Political Association of Greater Japan, and their affiliates.

MACARTHUR'S DIRECTIVES will have a liberating influence on the approaching Diet elections. By banning members of the forbidden organizations from office, they will give the more democratic, but less organized elements of Japan a better opportunity to win parliamentary seats.

Paris is the third largest city in Europe, being exceeded in size only by London and Berlin.

World Magazine
Coming in Spring
WASHINGTON, Jan. 4.—(AP)—David Lawrence, president of the United States News Publishing Corporation, yesterday announced appointment of Col. Lloyd Lohr as executive editor of "World Report," a weekly news magazine on international affairs to be published in the spring.

Before the war he was a foreign correspondent and writer of international affairs for the Associated Press, in Washington and all over the world. After covering the beating of the Chinese-Japanese "incident" in 1937, he moved through the Far East, Middle East and Europe.

HE WAS IN WARSAW when the Second Great War broke out. For his stories on the bombing of Warsaw and the blitzkrieg through Poland, he was given honorable mention for the Pulitzer prize for foreign correspondence in 1940.

After covering the German breakthrough of the Low Countries and the fall of France, Col. Lohr was returned to Washington for the Japanese "peace" discussions which ended with the attack on Pearl Harbor. Immediately afterward he went to active duty with the army.

chairsman of John Dower. From left to right are: H. A. Friedman, Mrs. John Dower, H. L. Ballin, Sgt. Ldr. Elsen, the latter two both standing; John Dower; Mrs. H. A. Friedman, Rabbi Abraham Postone, Mrs. C. Margolis and Mr. Margolis. The honored guest was briefly toasted by Mr. Friedman, Mrs. H. Bloomfield, Sgt. Ldr. Samuel Lieberman, which tributes were replied to by Sgt. Ldr. Elsen. A presentation was made on behalf of the congregation to the padre by Harry Baltan.

Ontario Starts "Housecleaning" Of Brokerages

TORONTO, Jan. 4.—(CP)—Moving swiftly in its campaign to clean up Ontario securities dealings the Ontario securities commission yesterday summoned some 20 brokerage houses "to show cause why their registrations should not be cancelled."

He mentioned steps the government had taken. He spoke of the recent labor-management conference. He stressed his recommendation to congress for legislation to submit a bill to the government to look into labor disputes while strikes are barred for 30 days.

THE PRESIDENT, in what he termed a stock-taking broadcast address to the American people, said he sought "no conflict with the congress."

He added that "I earnestly desire co-operation" between the two governments. (The address was carried by all United States networks and by the Dominion Network of the CBC.)

POINT BY POINT, Mr. Truman went over measures which he has recommended and on which congress has delayed action.

He emphasized that the decision was not whether "we shall devote our strength to reaching the goal of full production and full employment."

"We are well along the road to our goal," he said. "But we are not running the risk of coming upon a barrier which can stop us."

Many OBSTACLES had been thrown in the path of efforts to avert dangers of inflation and deflation. First among these were labor-management disputes. The president devoted a major portion of his straight-to-the-people talk to elaborating on that point.

He mentioned steps the government had taken. He spoke of the recent labor-management conference. He stressed his recommendation to congress for legislation to submit a bill to the government to look into labor disputes while strikes are barred for 30 days.

In Annual Review Scientists Recall History Behind Uranium Discovery

OTTAWA, Jan. 4.—(CP)—The National Research Council, reviewing scientific developments during 1945, recalled the history behind the discovery of Uranium, basis of atomic energy.

TWO DOUGHTY prospectors, Gilbert Labine and Charles St. Paul, were prospecting in 1906 in the Arctic wastes, 1,500 miles north of Edmonton in the Great Bear Lake area. They were seeking cobalt bloom staining on the rocks in that forbidding country.

One day St. Paul complained about his eyes and said he could go no further. He had become snow blind. The pair camped for some days while Labine prospected the surrounding area.

On May 16, 1906, Labine was following and he had hidden in a cave at small southern Alberta tracks, gained track at Calgary's Chinook Park oval in 1928. He was 15 years old at that time but a top up to the late Fred Johnston's Catch Me.

Frank, who was a lot of the credit for the success his son carried out of the riding came to Mr. and Mrs. Lemuel T. Whitehill. They bought George's riding contract from Mr. Johnston and treated the boy like a son when they took him over the racing circuit.

HORSES RAN kindly for George and from the western Canada race courses, where he started his climb to fame, he went on to win the major tracks in Mexico and to win the major tracks and the big stakes of the continent.

WOOLF had not regained consciousness since Pleasure Mr. the 13 to 1 favorite in an allowance race yesterday, stumbled and threw him onto the dirt strip at the first turn.

The horse, owned by W. W. Naylor, regained his footing and went on to finish first in the fourth race, breaking the limiting bet in 138.5 for the mile. Louis B. Mayer's Monaghan, the winner, was credited with a mark of 120.

The Ice Man, who was born at Cardston, Alta., was so labeled for his cool travels in quick setting conditions, has captured nearly every major prize ever offered by the Kentucky Derby.

HE ROSE AZUCAR, which won the money prize in the last of the richest race, the \$100,000 Anita Handicap, in 1935. He piloted winners in both the Belmont Futurity and Hollywood Gold Cup three times in a row.

In the race which crowned him champion money winner of all time.

WOOLF began racing at the old Tijuana, Mex., oval. He had reined two winners in five starts during the current Santa Anita season.

PLEASE HE was on the inside in a field of six horses going into the clubhouse turn yesterday.

There was no jam.

Former Alberta Jockey Is Dead Result of Fall

PASADENA, Calif., Jan. 4.—(AP)—The racing career of Canadian-born George (The Ice Man) Woolf, one of the most brilliant of the north American turf—came to an end today when the leading money-winning jockey of 1944 died of a heart ailment 12 hours after he was thrown from a horse at Santa Anita Park.

While specialists considered an operation to relieve pressure on his brain, the 36-year-old favorite of many a fan succumbed in hospital at 3:20 a.m. PST. His wife, Genevieve, and several of his jockey pals were at his bedside.

WOOLF had not regained consciousness since Pleasure Mr. the 13 to 1 favorite in an allowance race yesterday, stumbled and threw him onto the dirt strip at the first turn.

The horse, owned by W. W. Naylor, regained his footing and went on to finish first in the fourth race, breaking the limiting bet in 138.5 for the mile. Louis B. Mayer's Monaghan, the winner, was credited with a mark of 120.

Sex Maniac Killed Woman in Montreal

MONTREAL, Jan. 4.—(CP)—Detectives of the Montreal homicide squad said last night that Blanche Cavanaugh, 38, who was found dead in a lane behind Bernard street last New Year's morning, was the victim of a sex maniac. A verdict of death by natural causes was returned Wednesday in the coroner's court, but homicide squad detectives said they suspected foul play.

A new autopsy showed that the woman, although in ill health, had died as a result of acts of violence and criminal assault.

Strike Ended

RIO DE JANEIRO, Jan. 4.—(CP)—Employees of the Rio de Janeiro branch of the Royal Bank of Canada returned to work Wednesday when it was announced payment of the annual Christmas bonus had been authorized. They had gone on strike last Monday, charging they had failed to receive the bonus.

Congress Party Wins India Vote

WASHINGTON, Jan. 4.—(CP)—The government of India information service said yesterday that final results in the voting for the central legislative assembly in India gave the Congress party 56 of 102 elected seats.

Other results were as follows: Muslim League 20 seats; Akalis (Sikhs) 2 Independent (European) 8 Independent (Indian) 6.

TOTAL MEMBERSHIP of the legislative assembly is 141. The remaining 29 seats consist of officials and others nominated by the government of India.

Prime Minister Atlee and the viceroy, Viscount Wavell, have announced that a constituent assembly will be called to draw up plans for a new constitution for India after the central election and the provincial elections to be held later this winter are concluded.

GOODBYE

by Hal Dean

WITH the annual bonspiel of the Alberta Curling Association still a month away, the tempo of inquiries reaching Secretary Jim McCool is steadily increasing—an indication that at least some of the boys already have plans in the making.

First entry to check in was from W. D. Chynoweth of Calgary, who has a special design on the North West Curling Club trophy which he lost by a whisker to the Neils rink from Prosper (Chynoweth rink in the 1940 trip).

TWO NEW COMPETITORS have been added this year and a change has been made in the British Columbia playoffs. With the Triathlon Curling Club operating again, an additional sheet of ice will be available, making a total of 24.

Jim admits he's on the lookout for an assistant, but he still wants a little over the top Ted Brown chart man and who's now living in Kenora.

DISTRICT CHAMPIONSHIP, a special event—and new this year—appears to be creating considerable interest amongst some of the out-of-town clubs. In the past the district playoffs system was used to determine those eligible to enter the British Columbia playoffs, but this year, only those reaching the 15th in either of the two primary events—the Grand Challenge and King Edward trophy—will qualify for the playoffs.

The District Championship trophy carries the McGavin trophy, which will be run off at the 15th, but it is not necessary to participate in the district playoffs in order to compete in this special event. Entry will be on a first-come, first-served basis. Information as to conditions, districts, playoffs, etc., may be obtained from the secretary.

"Not-for-Sale"

Rangers Need Edgar Laprade To Rebuild Team Around

By JOHN D. HAMILTON
NEW YORK, Jan. 4.—(CP)—Lester Patrick hung an emphatic "not-for-sale" sign on center Edgar Laprade Thursday. The New York Rangers manager would like to get the rookie forward from Port Arthur, Ont., but he is "not for sale, period."

Patrick did not deny, however, that other players trade or sales might be in the air. Reports in Toronto have said Sam Connel Smythe, manager of Toronto Maple Leafs, is anxious to obtain Laprade and is willing to make a deal involving other players in order to get him.

PATRICK ADMITTED that he might have discussed Laprade with Smythe during the week-end. "Sure, the other teams would like to get Laprade and stop us from building a team around him. He's the only one we have in standing building around now. From now on we don't make any crazy deals. We're going to build a good team now and we're over."

Laprade has been centering the No. 1 Ranger line lately with Lynx and Phil Watson.

With average size of the Rangers 200 and the team still in the NHL cellar, some prying definitely appeared to be in line before long.

HANK GOLDUP, veteran forward, has been becoming a "hot" item for the Rangers' last three games and coach Frank Boucek refused to comment this week when asked.

Secret Hitler File Suggest "Impotent" Britons Sought Peace With Germans

By DANIEL DE LUCE

NUERNBERG, Jan. 4.—(AP)—Adolf Hitler's secret papers contain the assertion that "important English circles" conveyed a peace feeling to a representative of Rudolf Hess a month before Hess flew to Britain in May, 1941, in his vain attempt to end the war, it was disclosed last night.

World in Need Return to God, Rotary Is Told

There was perhaps never a time in history so propitious for turning to God and the Christian life as the present, the Rev. Elgin Turnbull of Knox United Church told members of the Rotary club at his dinner meeting in the Macdonald Thursday.

IN HIS INSPIRATIONAL New Year's address Mr. Turnbull said the future should not be viewed with the free and easy attitude which had characterized great numbers of humanity prior to the war. The carelessness of man in his responsibility to God and the church had been a basic instrument in bringing war about.

Pointing to the year just past Mr. Turnbull said the world had much to be thankful for in the victory over civilization over the forces of evil, but this was no time for Christians to rest on the comfortable assurance that complete victory had been won. The victory could only be achieved by a rededication to sincerity in the pursuit of Christian principles.

Mr. TURNBULL used as a metaphor the present month, January, which received its name from the Roman mythological god Janus. This god had two faces, one looking back upon the past and the future. What better time than the present for mankind and society to appraise the past and avoid its errors by accepting God in their daily lives throughout the future.

He commended the work of the Rotarians and the spirit of their brotherhood, and called upon them to help the influence of the Christian heart to all with whom they came in contact in the new plan of rebuilding the world on the solid basis of the spiritual.

Rotarian Edward Nelson, second speaker at the club dinner, described the beginning and growth of the club's periodical, "Rotarian."

HE SAID it was the oldest series of publications in Canada, with its first edition appearing 25 years of continuous issues. It was read by over 200,000 Rotarians in North America, and it was read by another 25,000 in South America and Latin countries.

Rotarian Charles Young, who presided at the dinner, said that the Rotarians had been chosen for articles by members of international Rotary contributors had been George Bernard Shaw, Edward B. Steinfeldt and Walter B. Pitkin.

EIGHTEEN CHOIR leaders who assisted in the Rotary Christmas carol festival were dinner guests of the club.

Edmonton Rotary will be the host club at the annual district conference to be held in January 16 and 17 and 18, it was announced. Delegates from 20 clubs of district 116—Stour Lookout to the Rockies, which in total represents 2,000 members, will be in attendance for the conference.

MEMBERS BADE FAREWELL to Rotarian Charles Young who is leaving shortly for Winnipeg. Charles C. Cook, chairman of the Warrenton Convention, was introduced as a new member. George McNeill presided at the meeting in the absence of Gordon Henry, president, who was away through illness.

N. Y. Publisher Learning to Fly Dead After Crash

RENO, Nev., Jan. 4.—(AP)—William T. Dewar, 26-year-old publisher of the New York Sun, died yesterday from injuries received in the crash of a private plane.

Mr. Dewar, a student pilot, was piloting the two-place plane from the rear seat, instructor Dewar was in the front.

A wing clipped a tree and the plane crumpled and crashed. The flying instructor, Joseph M. Williams, was not injured critically. John P. Brifford, Dewar's lawyer, said the young newspaperman had been visiting here four weeks. He was a son of William T. Dewar, president of the New York Sun Company.

One in every four pilots under 36 years of age in England is killed or injured every year in civil airlines.

Talking Starling Baby With Two Heads Is Dead In Great Britain

BIRMINGHAM, England, Jan. 4.—(AP)—A two-headed baby girl born New Year's day to the English wife of an American soldier died last night after 30 hours and 35 minutes of life.

THE INFANT, which weighed five pounds, 12 ounces at birth, had been kept alive since Tuesday by constant administration of oxygen, and physicians had held secret hope for its survival.

Dr. Lindsay Park, gynecologist and obstetrician who attended the child, explained that the disposition of the internal organs was such as to hinder its survival.

The 31-year-old mother, replying to a note sent by a correspondent to her room, identified the husband and father as Pte. Joe Gorno, De Soit, Mo., and said he had been notified yesterday by cable of the birth.

AT THE HOSPITAL, it was indicated that the mother, who previously had believed herself to be the mother of twins, had been told at least partly of the condition of the child, born four weeks prematurely. Because premature infants are not taken to their mothers' rooms for feeding, the problem of informing the mother could not arise immediately.

Doctors will make a post-mortem examination Friday to determine for medical records the unusual anatomy of the infant, strangely formed because of incomplete fusion of a single ovum.

Dr. Park described the child as having two heads and two necks joined at the point of the shoulder, two backbones and a single arm. She had two arms and two legs, showing two skulls and two stomachs.

FESTUS, Mo., Jan. 4.—(AP)—Joseph Gorno, identified yesterday the father of an abnormal baby born in Birmingham, England, said in tears he had received a cable Wednesday night "telling what happened."

Gorno, 36, was released from the United States Army Nov. 10, and since then he has been looking for a job. He lives on a farm near here, 30 miles south of St. Louis.

"I WANT TO SEE GLADYS as soon as I can," he sobbed. "We had planned for her to come to see us last night, 'telling what happened.'"

Gabor talked with a reporter before word of the baby's death was received. He said he hoped to receive direct word from his wife soon. He said the cable Wednesday night came from the hospital.

Sees Atomic Power Used by Industry

LONDON, Jan. 4.—(Reuters)—The first industrial use of atomic energy may be harnessed in large power houses, and possibly within 10 years, Prof. H. W. S. Massey, one of British atomic researchers recently in the United States, said yesterday.

THE POWER HOUSE aspect of atomic energy would most likely be the first development, Mr. Massey said, because the tremendous power of atoms could be generated in a given spot of concentration. He told an institute of the motor industry meeting that he could not assess the scope of application of atomic power to industry, calling it impossible to predict. Much depended on the numbers of persons employed and their confidence in the development of atomic power for commercial uses.

If Britain did not develop atomic energy, the country might find itself "on the shelf" if other countries did, Mr. Massey added.

26 Are Killed In Truck Crash

LA PAZ, Bolivia, Jan. 4.—(AP)—Twenty-six persons were killed yesterday when a truck in which they were riding plunged down a 500-foot cliff into the Tamapaya River in the Yungas region near La Paz.

INDIAN RADAR SCHOOL

NEW DELHI.—(CP)—One of the few such establishments in the Commonwealth outside the United Kingdom, a radar school in India yesterday was presented with a radio plotting and action information system for the public use of radio mechanics in the maintenance of shipborne radar equipment.

HOMER

Intensified efforts are being made by the Montreal Air Transport to utilize all channels of communication for the public, such as radio, exhibits, newspapers, magazines and literature.

Five Men in Jeep Hold Up Big Bus

MANILA, Jan. 4.—(AP)—Five men in a jeep, armed with sub-machine guns, forced a bus into an alley from one of the main arteries of North Manila today, robbing passengers and fled with two pretty passengers and a son of William T. Dewar, president of the New York Sun Company.

One in every four pilots under 36 years of age in England is killed or injured every year in civil airlines.

DOROTHY DIX SAYS

Service Man Is Puzzled By His Slovenly Wife

Women Forget That When They Marry They Enter the Most Competitive Job on Earth; Must Keep on their Toes to Make Good

DEAR MISS DIX: I am a service man. My furlough is about ended, but before I go back to the Army I want to get one matter cleared up. It is this: My wife doesn't care how she looks when I am around, but when strangers are about she gets dressed up and fixes herself up to kill. Is it because I'm slipping off or is it because I show her I love her so much that she thinks she doesn't have to make any effort to make herself attractive to me?

What is your idea about this?

SALVADORE: Well, Salvador, think that your wife has the mistaken belief that many women hold—that after they have said their vows they don't have to wear themselves out trying to look glamorous to him.

This is where they make a fatal error, for it isn't enough to marry a man once, if it is to be done every day if a wife expects to hold him all his corners.

WHAT WIVES FORGET is that when a woman gets married she enters into the most competitive job on earth, and she has to keep on her toes to make good in it. Her husband is brought in contact every day with young and attractive men who are not only as good as and, and who are groomed up to the last hair on their heads and painted up to their last toenail.

He is bound to contrast his wife with these characters, and wonder if he is the picture that he has carried away from the breakfast table of a slovenly, sloppy woman, who has not bothered to wash the cold cream off her face, or to put on a clean dress, or tie a handkerchief over her curves.

A woman once said to me that one of the reasons she wanted to get married was that she thought after she got married she wouldn't have to wash her face, or put on her complexion, or bother about how she looked; but she found out that she had to work twice as hard keeping her husband as she did to get him.

OVER 100 MILLION BOTTLES SOLD! VERY EFFECTIVE FOR MONTHLY PAIN

By JOSEPHINE LOWMAN—

Why Grow Old?

Q. "MY BUSY is very unhelpful. Will you please print a good exercise in your column?" I am 29 years old. Is it too late to do something about it now?

A. No. We can only develop the busy by building up the muscles of the mind and body and keep it at any age. Stand in front of a mirror. Bend your elbows and grasp the left lower arm lightly with the right hand and the right lower arm lightly with the left hand. Bend your elbows up just below the right elbow. Suddenly push the elbows toward each other, resisting with the hand. Relax. Continue with a jerky motion.

Q. "I AM JUST JOSEPHINE FOURTEEN and am self. I am said to be pretty but my complexion is poor and dull. I have freckles on my nose and sometimes have pimples. My mother has told me to wash my face three times a day but the freckles are still there and my forehead is still pimply. I hope you can help me."

A. Washing your face again is not guaranteed to make you as beautiful as actress Martha Vickers, above. It will help, however, to clear your complexion if you have a problem like the girl who asked Josephine Lowman for advice.

Q. "I AM JUST JOSEPHINE FOURTEEN and am self. I am said to be pretty but my complexion is poor and dull. I have freckles on my nose and sometimes have pimples. My mother has told me to wash my face three times a day but the freckles are still there and my forehead is still pimply. I hope you can help me."

A. Washing your face again is not guaranteed to make you as beautiful as actress Martha Vickers, above. It will help, however, to clear your complexion if you have a problem like the girl who asked Josephine Lowman for advice.

Q. "I AM JUST JOSEPHINE FOURTEEN and am self. I am said to be pretty but my complexion is poor and dull. I have freckles on my nose and sometimes have pimples. My mother has told me to wash my face three times a day but the freckles are still there and my forehead is still pimply. I hope you can help me."

Your Baby And Mine

By MYRTLE MEYER ELROD

THE CHILD has to have an opportunity to go long periods without toilet attention in order to cultivate control. The mother may succeed in keeping a hot dry, by frequent attention during the night, but she is encouraging ineffectiveness by 40 months attention. The child does not need to exert any control. Some children react poorly to being taken up at night and fight and cry and refuse to void. It would seem more sensible to let such children sleep, or wait to give them attention when they are awake and ask for it.

MRS. J. B. WRITER, "Since my baby was one year old I have let her needs guide me. Now at 2½ years I follow this routine. She goes to the bathroom when she wakes at 7:30, then shortly after breakfast at 8:30. There is no special attention about 9:15, again at 11:30 and right after lunch at 12:30. After her nap and in the middle of the afternoon she goes again. She has excellent daytime control."

"What bothers me is whether it would be encouraging a weakened control at night by taking her up twice as I have been doing. I take her up at 11:30 and again about 4 to 4:30. Save for one or two accidents she has had a dry bed since last spring. I am doing wrong will you tell me how I shall carry on?"

"I should also like to tell you how grateful I am for the little device of telling Linda a story about a little girl who became a doctor. She does the very same things. This is especially helpful when she puts up a fuss about something. It works like a charm, in fact Linda asks me to tell her about Rosemary."

INDIRECT SUGGESTIONS often get better results than direct ones and the story of what an exemplary little girl does, in these same situations, inspires the child to want to imitate this little story child. I think you might try putting Linda on the toilet when you go to bed and then wait until morning. I think she would soon learn to sleep that long without attention. That would make for a more restful night for all.

Our leaflet No. 65, "Toilet Behavior" may be had by sending a stamped, self-addressed envelope with this Bulletin and 15¢ to the Editor in care of this newspaper.

Q. "I have developed a slight skin condition. Just what causes this condition and what can I do to cure it?"

A. It must likely be just a more or less natural scaling of the scalp. It may be made worse by a dry scalp or strain, or illness. Sometimes it follows a hot summer. Use a good tonic for this condition. Real dandruff is a serious skin condition which should be treated by a specialist.

McKenney On Bridge

By WILLIAM E. MCKENNEY

AMERICA'S CARD AUTHORITY

We have all read about the dog who saw his reflection in the water and lost the piece of meat he had in his mouth because he tried to get the piece reflected in the pool. That happens in bridge, too, when players are too greedy. That is why a surprising number of them wind up down at three or four on to-day's hand.

Before
